

A banner for Nexibox Data Center Decluttering Services. The background is a photograph of a server room with blue lighting. On the left, the Nexibox logo is at the top, followed by the text 'DATA CENTER DECLUTTERING SERVICES' in large, bold letters. Below this is the text 'Professional Data Center Cleaning, Cable Management & Infrastructure Grooming Services' and a list of services: 'Clean | Organize | Optimize | Transform'. At the bottom left, there are four icons with corresponding text: 'CLEANER ENVIRONMENTS' (shield icon), 'ORGANIZED INFRASTRUCTURE' (cable icon), 'HIGHER EFFICIENCY' (bar chart icon), and 'FUTURE READY IT SPACES' (gear icon). On the right side, there is a vertical list of services with icons: 'RACK CLEANING & CABLE GROOMING', 'DATA ROOM CLEANING & ORGANIZATION', 'INFRASTRUCTURE ENHANCEMENT', 'CABLE IDENTIFICATION & LABELLING', 'AESTHETICS & BRANDING', and 'FLOORING & EARTHING'. At the bottom right, there is a quote: 'More than cleaning. We organize the infrastructure behind your IT.'

Nexibox Data Center Decluttering Services

Professional Data Center Cleaning, Cable Management & Infrastructure Grooming Services

Clean | Organize | Optimize | Transform

Transform Your Data Center Environment

Nexibox™ Data Center Decluttering Services is a professional service offering designed to transform cluttered server rooms and data-center environments into clean, organized, professionally managed and aesthetically presentable IT spaces.

Our services combine data-center cleaning, cable management, infrastructure organization, equipment identification and professional grooming to create an environment that is easier to maintain, operate and manage.

From individual 42U rack cleaning and cable grooming to complete data-room organization and data-center infrastructure transformation, Nexibox provides solutions that can be tailored to the customer's existing environment and requirements.

01. RACKCARE

42U Rack Cleaning & Cable Grooming

Professional rack cleaning and cable-management services designed for organizations looking to clean, organize and professionally groom an existing **42U server rack**.

RackCare Service Includes:

1. Rack Cleaning & Grooming

- Complete cleaning of **one 42U server rack**
- Industrial vacuum cleaning of rack and accessible equipment areas
- Detailed micro-cleaning of rack interior and exterior
- Cleaning of rack accessories, cable managers and patch panels
- Final rack grooming and professional presentation

2. Cable Management & Organization

- Complete cable dressing and organization
- Redressing and routing of existing cables
- Cable segregation and neat routing wherever practical
- Server, switch and network-cable organization
- Identification of unnecessary / redundant visible cabling

3. Cable Identification

- Cable identification and **labelling at both ends**
- Organization of cables based on existing physical connectivity
- Basic visual inspection of rack-level cable and equipment arrangement

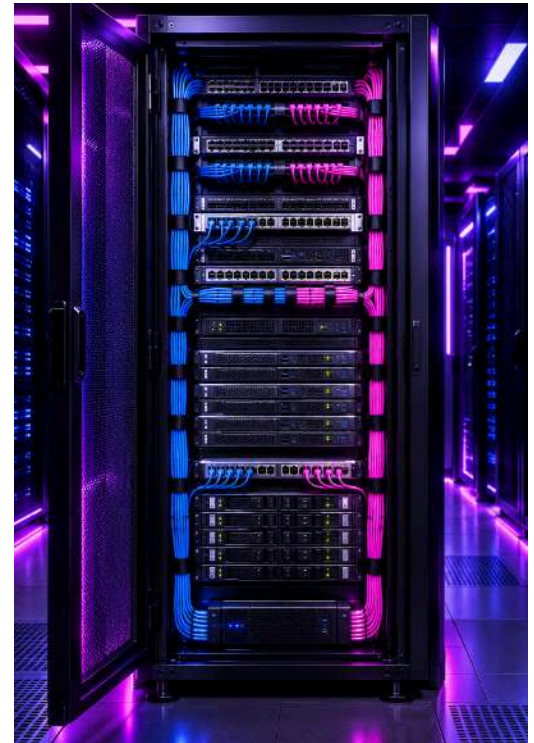

Included Equipment Up to:

- 5 Servers
- 2 Network Switches

Additional equipment: Charged separately based on quantity and site requirements.

Deliverable

One professionally cleaned, organized and cable-groomed 42U rack with clearly identified cabling.

02. DATAROOMCARE

Rack + Data Room Cleaning & Organization

Everything included in **RackCare**, plus complete cleaning and organization of the associated data-room environment.

Includes:

1.Rack Services

- Complete 42U rack cleaning
- Vacuum and micro-cleaning
- Cable redressing
- Cable routing and grooming
- Cable identification and labelling
- Up to 5 servers + 2 switches

2.Data Room Services

- Complete room housekeeping and cleaning
- Floor vacuuming and dust removal
- Cleaning of accessible areas around racks
- Cleaning of corners, cable-entry areas and accessible infrastructure
- Removal of loose dust and debris
- Organization of visible cables and services
- Identification of redundant / unused visible cables
- General room decluttering

3.Floor Protection

- Supply and installation of suitable **anti-static / protective floor matting**
- Coverage for an approximate **15 ft × 15 ft room**

Deliverable

A clean, organized and professionally presented server rack and data room, ready for regular IT operations and maintenance.

03. DATACENTER TRANSFORM

Complete Data Center Makeover & Infrastructure Enhancement

A fully customized solution for organizations looking to transform an existing server room or data center into a **cleaner, safer, more organized and professionally finished IT environment**.

Includes Everything in Package 1 & 2, Plus:

1.Room Aesthetics & Branding

- Data center wall stickers / graphics
- Equipment and rack identification signage
- Safety and warning signage
- Customized infrastructure labelling
- Corporate / customer branding
- Wall panelling where required
- Professional visual finishing of the room

2. Flooring & Infrastructure

- False / raised flooring
- Anti-static flooring
- Additional earthing points
- Rack earthing and bonding
- Equipment earthing enhancement
- Cable-tray enhancement
- Cable-entry and floor finishing
- Power/network cable segregation
- Other infrastructure improvements as required

3.Data Center Organization

- Rack layout optimization
- Cable-tray organization
- Power and network cable segregation
- Patch-panel organization
- Port and cable identification
- Rack and equipment numbering
- Redundant cable identification
- Overall room decluttering
- Final professional housekeeping

WHY NEXIBOX?

More than cleaning. We organize the infrastructure behind your IT.

Nexibox™ Data Center Decluttering Services combine:

Cleaning + Cable Management + Identification + Organization + Aesthetics + Infrastructure Enhancement

to help customers achieve a more professional, maintainable and operationally efficient data-center environment.

Terms & Conditions

CLEAR TERMS | SMOOTHER COLLABORATION | A STRONGER TOMORROW

TRUST
TRANSPARENCY
PROGRESS

01

Site Assessment

Package 3 is subject to a site survey and technical assessment.

02

Equipment Shutdown

Customer is responsible for approved shutdown, isolation and restoration of IT equipment.

03

Data & Equipment Responsibility

Customer must ensure data backup. NexiBox is not liable for pre-existing failures or data loss.

04

Cable Labelling

Labelling is based on available access. Active testing or configuration changes are additional work.

05

Additional Equipment

Standard package includes up to 5 servers and 2 switches. Additional equipment will be charged separately.

06

Room Size

Package 2 is based on a 15 ft x 15 ft room. Larger rooms or multiple rooms will be quoted separately.

07

Civil & Infrastructure Works

Subject to site conditions and approved BOQ.

08

Customer Access

Customer shall provide required access to the data center and infrastructure.

09

Service Schedule

Execution dates will be mutually agreed based on site readiness and customer requirements.
